

SYSTEMS DEVELOPER Cleveland, OH

COMPANY DESCRIPTION:

System Seals is a recognized leader in hydraulic seal technology - specializing in the design and manufacture of complete sealing system solutions. We deliver highly customized seals to meet the needs of every client in a wide range of industrial markets, including: oil and gas, steel mills, hydraulic presses, injection molding, mining and more.

RESPONSIBILITIES:

- Develop new software applications, adhering to the SDLC whenever possible:
 - Investigate and analyze required and requested solutions
 - Design intended systems, incorporating OOP techniques and tiered logic structure
 - Propose and implement testing methods, scripted and manual processes
 - Train end users, request feedback, document and evaluate success rate
- Modify existing software applications; minimize need for critical fixes
- Retire/replace outdated and inadequate applications and services
- Develop and manage database queries and stored procedures; normalization
- Ad hoc reporting
- Administer System Seals Tableau Business Intelligence Server and MS-Desktop software
- Maintain documentation: SOP's, code control, version history, development libraries, etc.
- Continued education; stay on top of emerging trends and technologies
- Perform all duties as assigned

REQUIREMENTS:

- Bachelor's Degree in Computer Science or equivalent work experience
- Must be a good problem solver who can think critically and work independently
- Ability to program in an N-Tier Architecture using Microsoft Visual Studio .NET tools.
- Demonstrate experience using multiple technologies such as VB6.0, VB.NET, C#, ASP.NET, HTML
- Knowledge of relational databases with the ability to write complex Transact-SQL statements.
- Self-motivated, able to handle multiple projects simultaneously and independently
- Previous exposure to software change control mechanisms for new or modified systems, formal software QA/release testing, and version tracking
- Incorporation of access security controls within software/systems
- Documentation---examples of previous work
